

The Bookkeeper Hybrid Model

You get a physical bookkeeper AND the platform they work on. One price. — Mexausa Food Group, Inc.

The Problem

Small and medium-sized businesses need a bookkeeper — but hiring a full-time employee costs \$50,000–\$65,000/year in salary alone, plus benefits, onboarding, and the risk of turnover. Most businesses overpay for a person and still have no organized system underneath them.

The Solution

Mexausa Food Group, Inc. delivers a part-time professional bookkeeper paired with AuditDNA's fully built operations portal — a live, PIN-secured platform that handles every function on your job description from day one.

WHAT YOU GET — COMPLETE PACKAGE

Function	Delivery	Platform
Part-time bookkeeper (10 hrs/week)	In-person or hybrid	AuditDNA Bookkeeper Pro portal
QuickBooks 2024 management	Direct QB access	Live sync dashboard
Certified payroll processing	Weekly — DIR eCPR filing	Certified Payroll tab
Timecards — field employees	Weekly entry + approval	Timecards tab
Workers Comp CA — filing & audit	Annual audit prep + DWC-1	Workers Comp (CA) tab
AP / AR management	All vendor + client invoicing	A/R & A/P tab
Bank reconciliation	Monthly — all accounts	Bank Coding + Reconcile tab

Why AuditDNA vs. Hiring Alone

Factor	Hiring a Bookkeeper	AuditDNA Hybrid Model
Cost	\$4,500–\$5,500/month + benefits	Starting at \$1,499/month all-in
Onboarding time	2–4 weeks ramp-up	72 hours — portal live immediately
System / software	They bring their own habits	Full platform built and ready
Turnover risk	High — start over if they leave	Zero — portal stays, we place another
Scalability	One person, one business	One platform, unlimited clients
Compliance	Depends on person's knowledge	DIR, EDD, IRS, CSLB all built in
Oversight	You manage them directly	Saul Garcia oversight included
