

AuditDNA Consulting Portal

AI-powered operations intelligence for your consulting practice — client portals, billing, and intelligence in one platform.

Built for Consultants and Professional Services

The AuditDNA Consulting Portal gives professional service firms a complete client management and operations hub — proposals, billing, contracts, document management, and AI-assisted research — all in a PIN-secured browser dashboard.

CONSULTING PORTAL MODULES	
Module	What It Does
Client Dashboard	Active clients, engagement status, revenue pipeline, next steps
Proposal Builder	Generate and send proposals electronically with e-signature
Contract Management	Draft, send, track, and store all client agreements
Billing & Invoicing	QuickBooks-integrated invoicing, retainer tracking, AR aging
Document Center	Secure file storage, version control, client file organization
Time Tracking	Log billable hours by client, project, and team member
AI Research Assistant	Powered by AuditDNA intelligence for market and industry research
Reporting	Client P&L, utilization rates, revenue by client, monthly summaries
